

## General Characteristics

### Construction :

The rigid frame is composed by two flanks in steel machined and braced.

It is driven by belt.

The particular design of carpet boxes allows a fast change of front and rear belt.

Machine in stainless steel.

The two laminating rolls are nonstick.

Thick synthetic carpet: 6 mm.

Feeding hopper higher for security.

### Maintenance :

Scraper easily accessible.

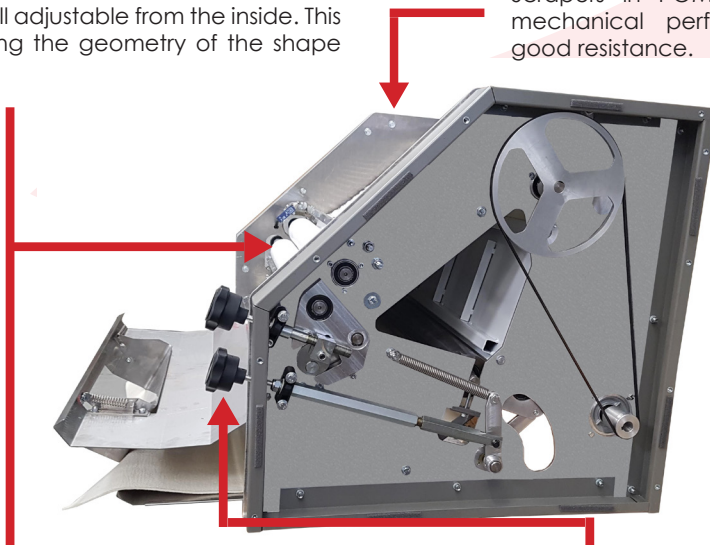

Heavy belt easily removable to let belts being aerated.

## The advantages of moulder Artisane Origin

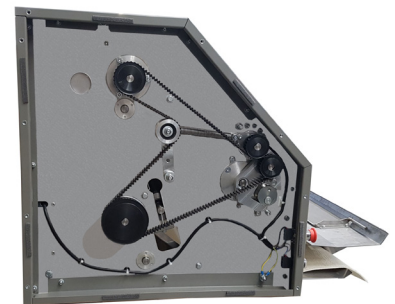

Laminating roll adjustable from the inside. This allows retaining the geometry of the shape after rolling.

Scrapers in POM polymer with high mechanical performance and very good resistance.

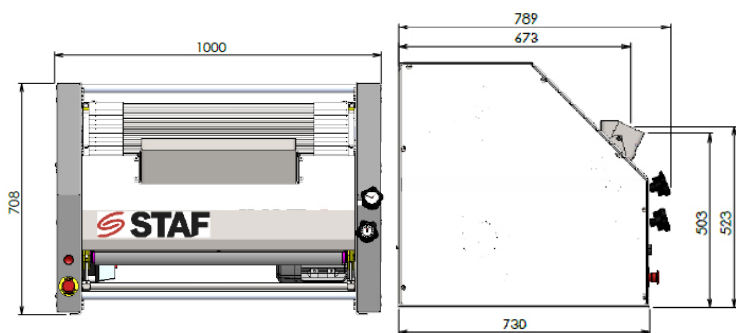

PETP polymer laminating roll, non-stick material. It has a very high resistance even by abrasion.

Adjustement by ruffles with lobes to indicate the position (clock type).

# Physical characteristics

**Net Weight :** 156kg

**Packed weight :** 170kg  
(palet + cardboard)

**Shipping crate gross weight :** 200kg

**Dimension packed :** 1000x789x708 (mm)  
(palet + cardboard)

**Shipping crate dimensions :** 1100x860x840 (mm)

## Electrical characteristics

**Voltage :** Engine 380 V. Three phase

**Power :** 0.55kW - 1.65A

**Frequency :** 50 / 60Hz

## Capacity

The Artisane Origin model has been designed for a long life, facilitated by refined mechanics and simple and easy repair equipment. It is intended primarily for discerning bakers in terms of shaping dough.

**Capacity:** 1500pcs/h

**Type of dough :** 60% hygrometry

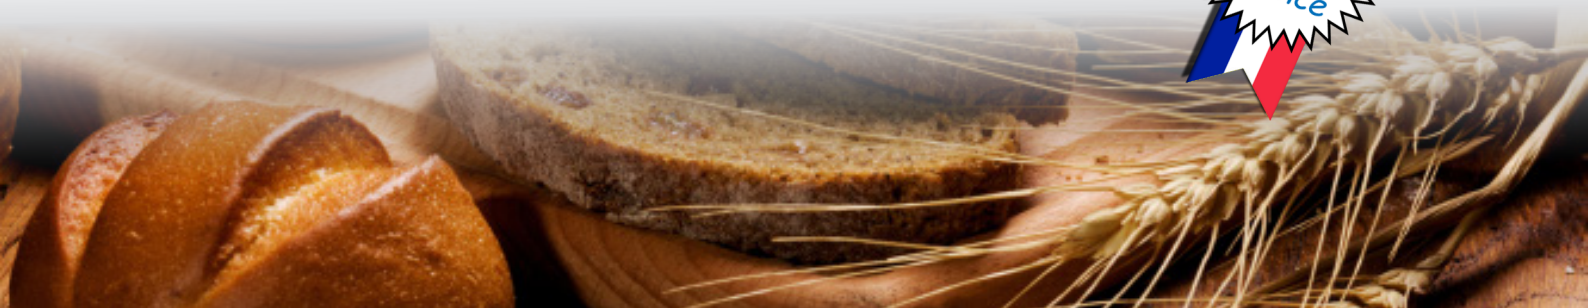

## Option

- Stainless steel stands with castors
- Motorized output belt
- Shipping crate

## Security

**Our machines comply with:**

- machine directive n° 98/37/CE
- French labour code
